APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

OCT 2 7 1977

_	
	rected application filed
Mar	filed under 34427
	The applicant Sunoco Energy Development Company
1270	O Park Central Pl., Box 9, Suite 1500 Dallas Street and No. or P.O. Box No. City or Town
mova.	Street and No. or P.O. Box No. City or Town S 75251 City or Town
Texa	s 75251 , hereby make application for permission to appropriate the public State and Zip Code No.
	ers of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion	if a copartnership or association, give names of members.) Incorporated January 2, 1975
in t	he State of Delaware
1.	The source of the proposed appropriation is. Underground Well No. 17 Name of stream, lake or other source.
2.	The amount of water applied for is 3.25 second-feet One second-foot equals 448.83 gals. per min.
	(a) If stored in reservoir give number of acre-feetacre-feet
3.	The water to be used for Industrial Irrigation, power, mining, manufacturing, domestic, or other use.
4.	Irrigation, power, mining, manufacturing, domestic, or other use. If use is for:
	(a) Irrigation (state number of acres to be irrigated)
	(b) Stockwater (state number and kinds of animals to be watered).
	(c) Other use (describe fully under "No. 12. Remarks")
	(d) Power:
	(1) Horsepower developed.
	(2) Point of return of water to stream.
5.	The water is to be diverted from its source at the following point: NW SE% Section 36, T.35N.
23E.,	M.D.B.&M., or at a point from which the South ½ corner of said Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
ction	36 bears S 20 degrees 45' W 2205.00 feet it should be stated.
6.	Place of use Sections 1,2,3,10,11,12, NW4 NW4 Section 13, N/2 N/2 Sec. 14
35N.,	Describe by legal subdivision, if on unsurveyed land it should be so stated. ec. 15, T.34N., R.23E., M.D.B.&M., Why Sec 5, Sections 6 & 7, Why Sect N., R.24E., M.D.B.&M., Sections 13,14,22,23,24,25,26,27,34,35 and 36 R.23E., M.D.B.&M., Sections 18,19,30,31, Why Sec. 17, Whysec. 20
sec.	29 and W Sec. 32, T.35N., R.24E., M.D.B. & M.
7.	Use will begin about January 1 and end about December 31 , of each year. Day and Month Day and Month
8.	Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
	specifications of your diversion or storage works.) Drill well to approximately 6000 feet
inst	all casing and cement back to surface to protect fresh water zones. State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

D Estimated cost of works Y I V V V • V V	

0. Estimated time required to construct works 2 years	
1. Estimated time required to complete the application to beneficial use5	
Remarks: For use other than irrigation or stock watering, state number and consumptive use.	
This application is for a geothermal well with allons per day. The withdrawal will be 2352 acress, the temperature water would be flashed with the reday being beneficially used and the remaining ervoir so only 235 acre feet per year is actually mingled with other applications. The total hot ecessary for beneficial use is 3300 acre feet per	e feet per year; however, net effect of 210,000 gal water returned to the re y used. This application water-steam equivalent

Indition that the power or or steam is subject to of Nevada when the need Can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1978
State retains the right to regulate the use of the war and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water - steam of tively withdrawn from the geothermal ground water result through 34443 is limited to 3300 acre-feet of water. This permit is further issued subject to the corenergy generated by the beneficial use of this water recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which control to exceed	at least the first 5000 level to the surface to equivalent to be consumpservoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1978 November 3, 1979
State retains the right to regulate the use of the wa and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water - steam of tively withdrawn from the geothermal ground water resulting the state of through 34443 is limited to 3300 acre-feet of water. This permit is further issued subject to the corenergy generated by the beneficial use of this water recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which could to exceed. 3.25	at least the first 5000 level to the surface to equivalent to be consump—servoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1979 December 3, 1979
State retains the right to regulate the use of the wa and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water - steam at tively withdrawn from the geothermal ground water rest through 34443 is limited to 3300 acre-feet of water. This permit is further issued subject to the cor energy generated by the beneficial use of this water recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which cont to exceed. 3.25	at least the first 5000 level to the surface to equivalent to be consumpservoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need Can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1979 December 3, 1979 November 3, 1979 November 3, 1979
State retains the right to regulate the use of the wa and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water - steam of tively withdrawn from the geothermal ground water resthrough 34443 is limited to 3300 acre-feet of water in this permit is further issued subject to the concenergy generated by the beneficial use of this water recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which cont to exceed. 3.25. cubic feet per second. Actual construction work shall begin on or before. Proof of commencement of work shall be filed before. Work must be prosecuted with reasonable diligence and be completed on or before. Application of water to beneficial use shall be filed on or before. Proof of the application of water to beneficial use shall be filed on or before.	at least the first 5000 level to the surface to equivalent to be consumpservoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need Can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1979 December 3, 1979 November 3, 1984 December 3, 1984
State retains the right to regulate the use of the wa and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water — steam etively withdrawn from the geothermal ground water resthrough 34443 is limited to 3300 acre-feet of water. This permit is further issued subject to the corenergy generated by the beneficial use of this water recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which could to exceed. 3.25	at least the first 5000 level to the surface to equivalent to be consumpservoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need Can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1979 December 3, 1979 November 3, 1984 December 3, 1984
State retains the right to regulate the use of the wall and all times. There are to be no perforations in the well for feet. The well is to be cemented from the 5000 foot protect fresh water zones. The total water — steam e tively withdrawn from the geothermal ground water reseamed through 34443 is limited to 3300 acre—feet of water. This permit is further issued subject to the corenergy generated by the beneficial use of this water. The recapture and use within the boundaries of the State arises. The amount of water to be appropriated shall be limited to the amount which control to exceed	at least the first 5000 level to the surface to equivalent to be consump—servoir under Permits 34427 per year. Indition that the power or or steam is subject to of Nevada when the need Can be applied to beneficial use, and but not to exceed November 3, 1978 December 3, 1979 December 3, 1979 November 3, 1984 December 3, 1984 December 3, 1984 ROLAND D.
